UFO Observation of February 1968

Mr. [REDACTED]

Hamburg, New York 14075

Reference your letter of 18 October 1969. Enclosed is the negative to your UFO sighting of February 1968. Photographic analysis of your negative revealed the following:

"Examination of the referenced photography revealed that the 'unidentified flying object', referred to by the photographer as 'lightning', is probably a result of a multiple exposure of a flashing light source. The erratic pattern displayed is probably caused by camera motion/vibration."

Project BlueBook:

Dear Sirs:

I have often to you about the knowledge of Flying Saucers. In about the middle of February 1968 I unexpectatly caught a picture of a UFO on my picture. I am an amature astronomer and like to take pictures of stars which are all time exposures. This one was taken at f/8.8 for about 2 minutes of some constellation which I do not remember. I would appreciate it if you could tell me approximately what it is. My theory is that it could be a lightning picture but if it is it's one of the most startling ever taken. To prove this ther are as I forgot to mention earlier star trails on the negative. Thank You.

Inclosed are ~~4~~ four enlargements and
one contack print.

Sincerely yours,

Feb 68

SAF-OICC/Miss Turnure/76526/Dec. 16, 1968

14 DEC 1968

Dear Mr. [REDACTED]

This replies to your letter postmarked December 14, 1968, in which you inclosed some photographic prints.

In order for us to evaluate a photograph, we must have the original negative (or original Polaroid print). If you care to send us the original negatives, we will have them analyzed. The following information will also be needed:

- Type and make of camera
- Type, focal length, and make of lens
- Brand and type of film.
- Shutter speed used
- Lens opening used; that is, "f" stop
- Filter used, if any
- Was tripod or solid stand used
- Was "panning" used
- Exact direction camera was pointed with relation to true North, and its angle with respect to the ground

If all of the above information is not available, minimum requirements are type of camera, and smallest and largest "f" stops and shutter speed readings of the camera.

The prints you sent us are inclosed.

Sincerely,

JAMES H. AIKMAN
Major, USAF
Chief, Civil Branch
Community Relations Division

Dear Major Aikman:

In the letter which I sent you regarding the pictures I took of an unknown object I am returning the information which you requested for the investigation of that object. As you also requested the negative which I am sending to you in the good hopes that I will get it back undamaged from you. I would appreciate you sending the negative back as soon as possible because I treasure the negative very highly.

The type and make: Kodak Vigilant
Type, focal length, and make of lens: Kodak Anastigmat Lens 100mm.
Brand and type of film: Kodak 620
Shutter speed used: Time. 2 minutes or more.
Lens opening used: f/8.8
No filter was used.
Tripod: Kalmar F - 88
No panning was used.
Exact direction: This I am not very sure of but I recall where almost I took the picture. It was North East at about 120° but I cannot tell you how high the object was in the sky because I never saw it myself.

Inclosed is one negative and Thank you for your time.

Sincerely,
[REDACTED]

FTD WORK ORDER

Date Issued 17 Feb 1969

1. Description of Work: (Include title of unscheduled tasks.)

Request photo analysis be accomplished on the attached photograph to determine what the unidentified flying object may be.

February 1968, Hamburg, New York.

Request all material be returned upon completion of analysis.

Dear Major Aikman:

On December 14, 1968 I sent you some photographs of something which I do not know. I received back a request of information that you wanted in regard to this photograph. This I sent immediately to your headquarters and I am still waiting for a reply. I said in this letter that I would like my negative back as soon as possible and I would appreciate this request most urgently as I need it. It has been almost 3 months since I have sent it and I have been wondering if something has happened to it. Please send it as soon as possible along with your reports if any. Thank you for your time and trouble.

Yours sincerely,

Feb 68

UFO Observation, February 1968

Mr. [REDACTED]

Hamburg, New York 14075

Reference your UFO photograph of Feb 1968 from Hamburg, New York. Your negative has been submitted to our photographic department for analysis. However, they have not returned it yet with their findings. If you wish your negative returned immediately, please contact us; and we will return it without the analysis. In either case, your negative will be returned to you intact and undamaged. Thank you for your cooperation.

subject: UFO observation, February 1968

Dear Sirs:

In December 1968 I sent you a photograph of a UFO which you were to have evaluated. I am now requesting that my original negative and possibly the results of the analysis be returned to me as I have need of them immediately. Thank you very much for your help in this matter.

Sincerely,

DATE OF REPORT 29 October 1969

SUBJECT UNIDENTIFIED FLYING OBJECT

LOCATION Hamburg, New York

DATE February 1968

PHOTOGRAPHY

AF _____ IR _____

QUALITY Poor

P NRS One negative, one print (5x7 enlargement)

1. PURPOSE: This report is in reply to Work Order 69-44 submitted by Lieutenant Colonel Quintanilla, TDPT(UFO), requesting photo analysis be accomplished on a photograph of an "unidentified flying object" to determine what the object may be. The photograph was taken in Hamburg, New York in February 1968.

2. ANALYSIS: Examination of the referenced photography revealed that the "unidentified flying object", referred to by the photographer as "lightning", is probably a result of a multiple exposure of a flashing light source. The erratic pattern displayed is probably caused by camera motion/vibration.
